mighty party crazy in love pack

good game :). I am so good at this... I am nailing this... I am one with the music... There is no keyboard... I am just doing...

OH GOD DAMN IT F**K

Exhale

I am so good at this... I am nailing this.... I loved this movie, great workout!. Overall it's decent. it can feel a bit cluster♥♥♥♥y sometimes and the weapons don't really feel balanced but i'd say for 2\$ it's good. If you can't use it your a low level or your just glitched or your just a moron. What a beautiful experience!

This game is short but powerful, the choices you make are impactful and quite deep too.

One thing I drew from my time playing the game was how well it was written, the dialogue and overarching story is really well thought out and great.

The puzzles were very minimal (could be a good or bad thing depending on your tastes), the artwork, music and voice work were excellent.

Thank you to the developers and everyone involved!. Pros

- + Pretended to be Shao Kahn while using the Maul to crush enemy knees and heads
- + An ally kicked me into the path of an enemy spear while crossing the logs in Taiga
- + Accidentally threw my spear through a team mate, apologized by dropping a med bag in front of him
- + Was wondering why my weapon disappeared, looked down and saw my left arm on the floor
- + The Hans Test
- + Combat feels like Mount and Blade, but with only 4 horses
- + Friend can play the Doom theme using Lute Bot
- + Pressing V every 5 seconds
- + Good number of cosmetics, unlocked through gameplay
- + Very, very fun combat with quite a high skill ceiling

Cons

- Not much to do for support roles (med bag, toolbox stuff, building\repair)
- Really long "warm up" time sometimes experienced in the Main Menu
- Vaulting up some spots in the map can cause you to get stuck, forcing you to end things yourself
- Can't play local games without downloading server tools

12/10, would recommend again

What a remarkable experience.

The game starts out with a breathtaking symbol...a monster that looks like a bent willy.

It then gets even better as the introduction sets the scene for what will be a stunning shortish trip. Get your popcorn ready before you play this one as you will feel as though you are at the movies.

The doors are really well painted, with all of them looking startlingly different. Ambient sounds are quite the shock, with the clicking of the doors being that Yesssssss moment of merciful release from some of the more complex puzzles.

Speaking of puzzles, most are not so tough but the piano puzzle near the start will need some experimentation. The best puzzle and I genuinely believe it to be one of the greatest puzzles of all adventure games (Everyone MUST try it!) is puzzle number 7. Don't read spoiler reviews that give away the answer as it is a puzzle of absolute genius. I have never encountered a game (and I have played LOTS of point and click adventures) with such a unique and brilliant puzzle. This puzzle alone makes the whole experience well worth the price of entry.

Upon completion, we are offered the teaser that there may be more coming...a sequel perhaps...with more stunning puzzles like puzzle 7 (or even 1). Ohhhh yesssss pleasssse :):). HYPER SUPER MEGA FUN!. \u5e0c\u671b\u8fd9\u6e38\u620f\u633a\u8fd\u7684\u72b6\u51b5\u6709\u6539\u5584\u0c\u6211\u662f\u9a6c\u6765\u897f\u4e9a\u4eba\u4f46\u73a9\u8fd9\u6e38\u620f\u7684\u633a\u8fd\u95ee\u9898\u8fd8\u86ee\u4e25\u91cd\u7684. This is why Trump will win 2020. Simple one-button rhythm game that gets gradually more complex as the levels advance. Rage-inducing, yes, but oh-so-satisfying when you finally complete one of the levels you've been stuck on.. Good Game worth having in your inventory. I really liked this game. Its super fun. Great graphics and great controls and great gameplay.. I was pleasantly surprised with this game. Good game and good price for 5 \$. Heard about this a few months ago and was looking forward to seeing it.

Worth the watch for sure.. Ugh. Where to begin?

The stock images as backgrounds was jarring. Worse still, were the videos of the cruise ship. We get it. You're on a boat.

Story and characters not interesting, but by far the worst part was--THE ♥♥♥♥ING MINIGAME.

You're supposed to be on vacation and people are chasing you around the whole time to fix their♥♥♥♥♥♥ The game is so boring and gets really irritating after the billionth time someone breaks their tablet, and as it has been stated before, is not important to the game. It's not even a fun minigame. There's no option to skip it.

Just...no.
